«As we work to create light  
for others, we naturally light  
our own way.»

**Mentre lavoriamo per creare  
luce per gli altri, illuminiamo  
naturalmente la nostra via.**

and professional speaker.)

## ARTIERI DELLA LUCE

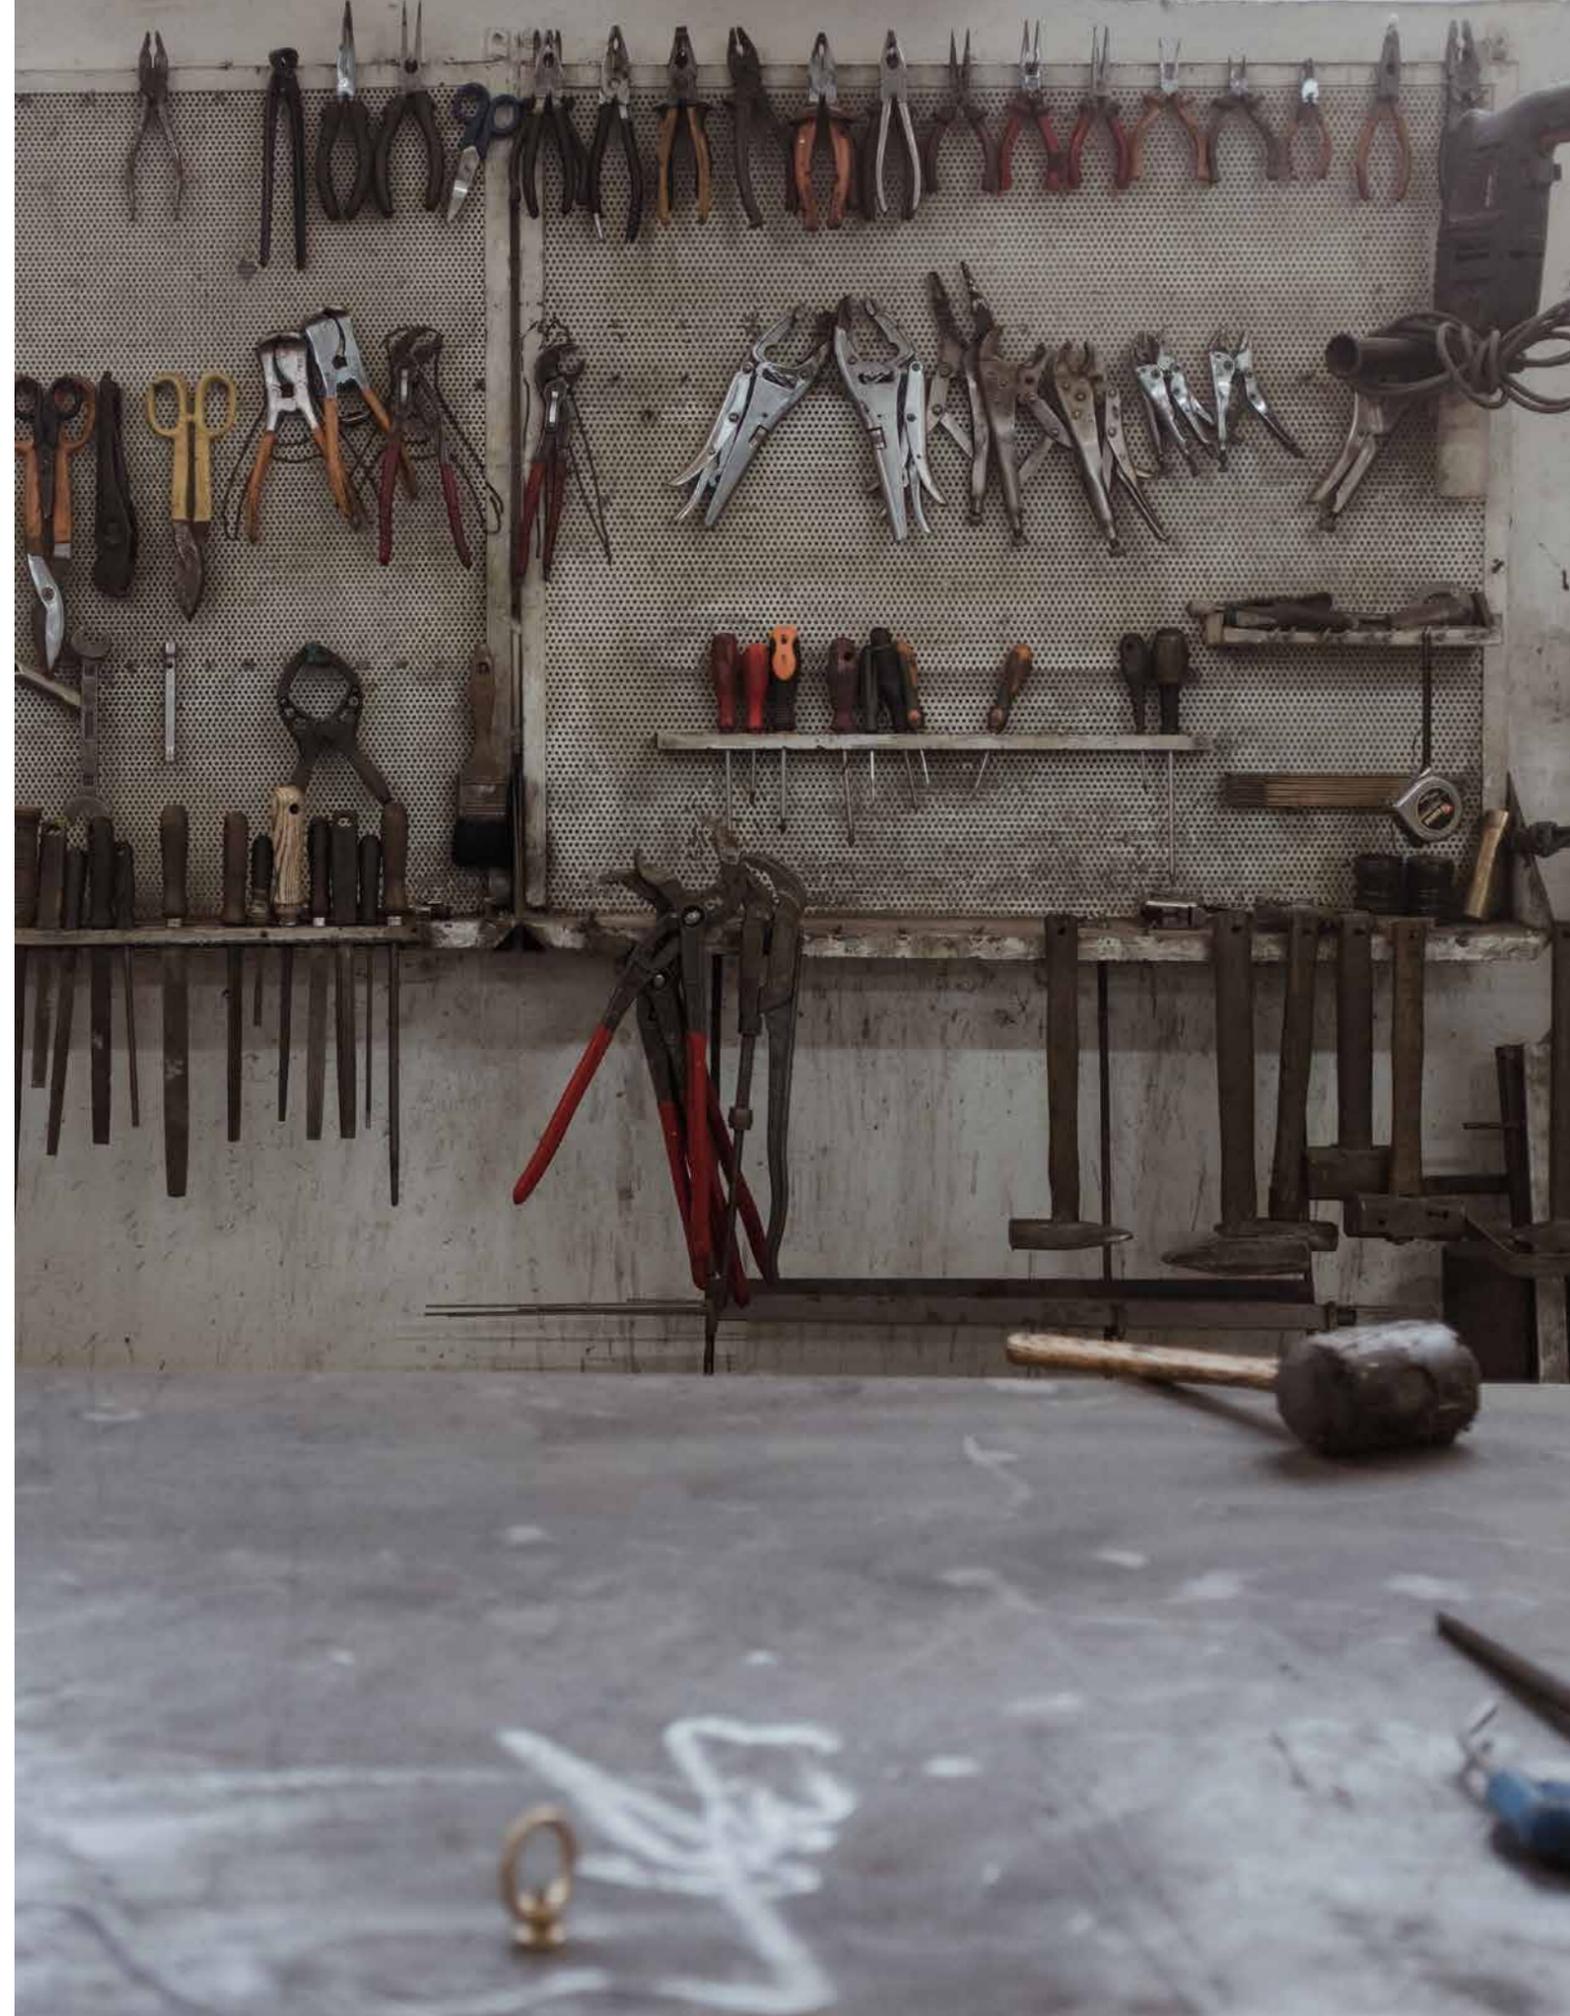

Gibas ha cuore e radici nel parco dei Monti Sibillini: la fondò lì Basilio Giacomozzi, giovane artigiano del ferro, insieme alla sua Giuseppina, venditrice talentuosa, alla soglia degli anni Sessanta. E sempre lì, dove non esistevano distretti operativi, ne crearono uno loro. In 55 anni, la bottega si farà grande impresa; la piccola ma operosa comunità diventerà una rete globale. Il progetto di rendere famose quelle brillanti creazioni, di dare una materia e una forma alla luce, si è spinta sempre più lontano dalle convenzioni per avvicinarsi alla filosofia creativa di designer con gli occhi sul futuro.

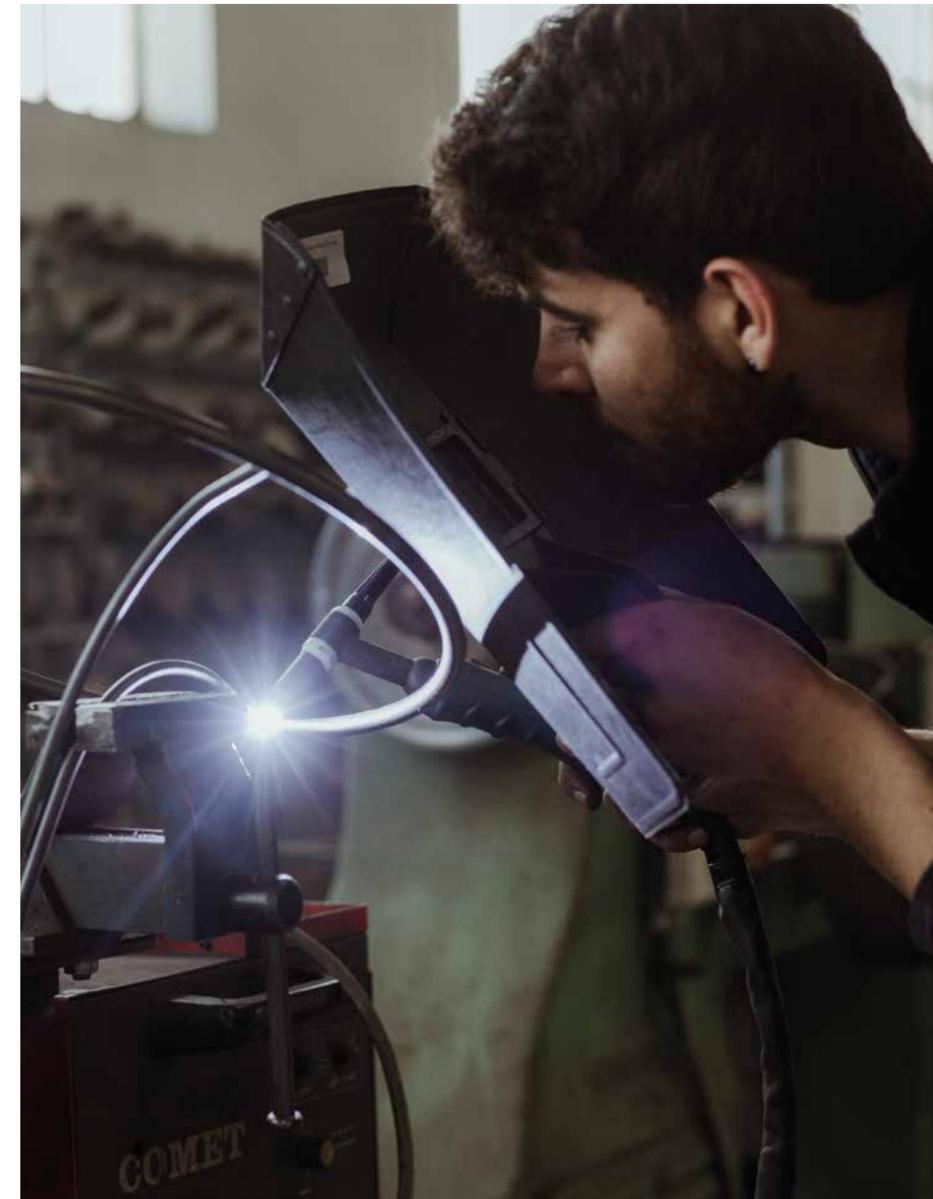

### ARTISANS OF THE LIGHT

Gibas has its heart and roots in the park of the Sibillini Mountains: there it was founded by Basilio Giacomozzi, a young iron craftsman, together with his Giuseppina, a talented seller, on the beginning of Sixties. And always there, where there were no industrial zones, they created one. In 55 years, the small shop will become a big company, the small but diligent community will become a global network. The project to make those brilliant creations beautiful, to give a material and a form to the light, got always pushed further away from conventions to approach the creative philosophy of designers with eyes on the future.

### LICHTHANDWERKER

Gibas hat sein Herz und seine Wurzeln im Park der Monti Sibillini: dort hat Basilio Giacomozzi sie gegründet zu Beginn der sechziger Jahre, ein junger Metallbauer zusammen mit seiner Giuseppina, einer talentierten Verkäuferin. Und genau dort, wo es kein Industriegebiet gab, schufen sie eins. In 55 Jahre wird aus dem kleinen Laden ein großes Werk; die kleine, aber fleißige Gemeinschaft wird zu einem globalen Netzwerk. Das Projekt, diese brillanten Kreationen bekannt zu machen, dem Licht ein Material und eine Form zu geben hat sich immer weiter von Konventionen entfernt um sich der kreativen Philosophie von Designern mit Blick auf die Zukunft zu nähern.

## PROGETTI

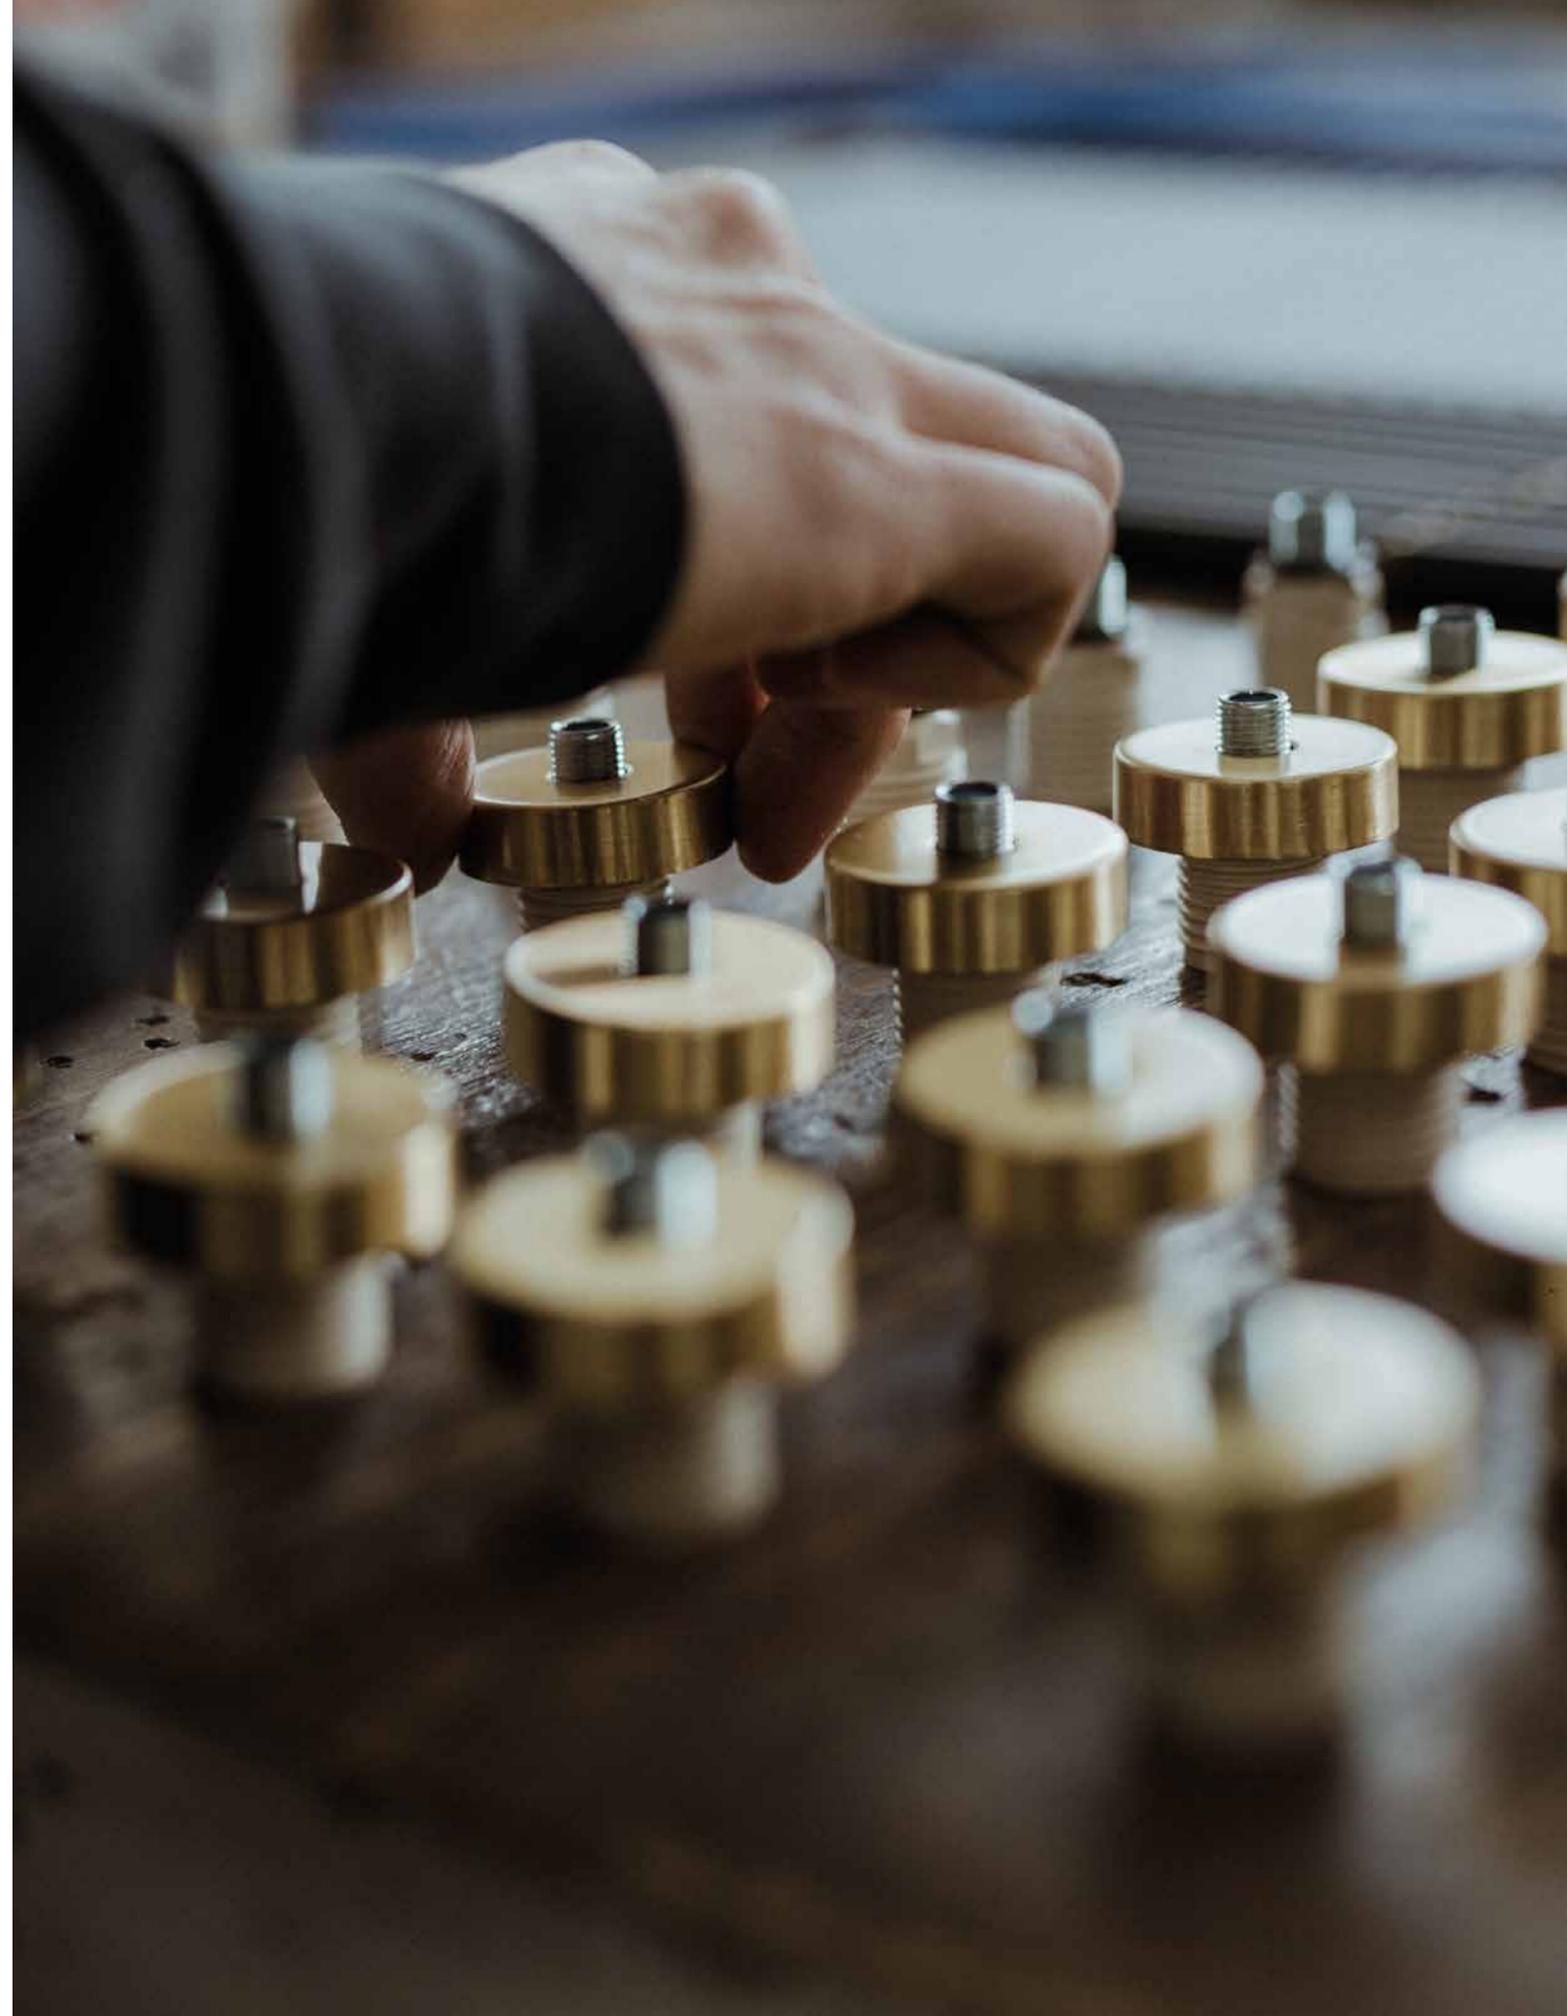

Studiamo e modelliamo sistemi d'illuminazione leggeri e scenici per strutture prestigiose, seguendo idee di imprenditori, light designer e architetti nel mondo. A partner e clienti forniamo campioni rapidi così come consulenze complete per prodotti su misura—oggetti d'arredo preziosi che rispettino, per colore e struttura, il gusto e i parametri di chi colloca Gibas in ambienti destinati all'accoglienza turistica o in spazi business fluidi e innovativi.

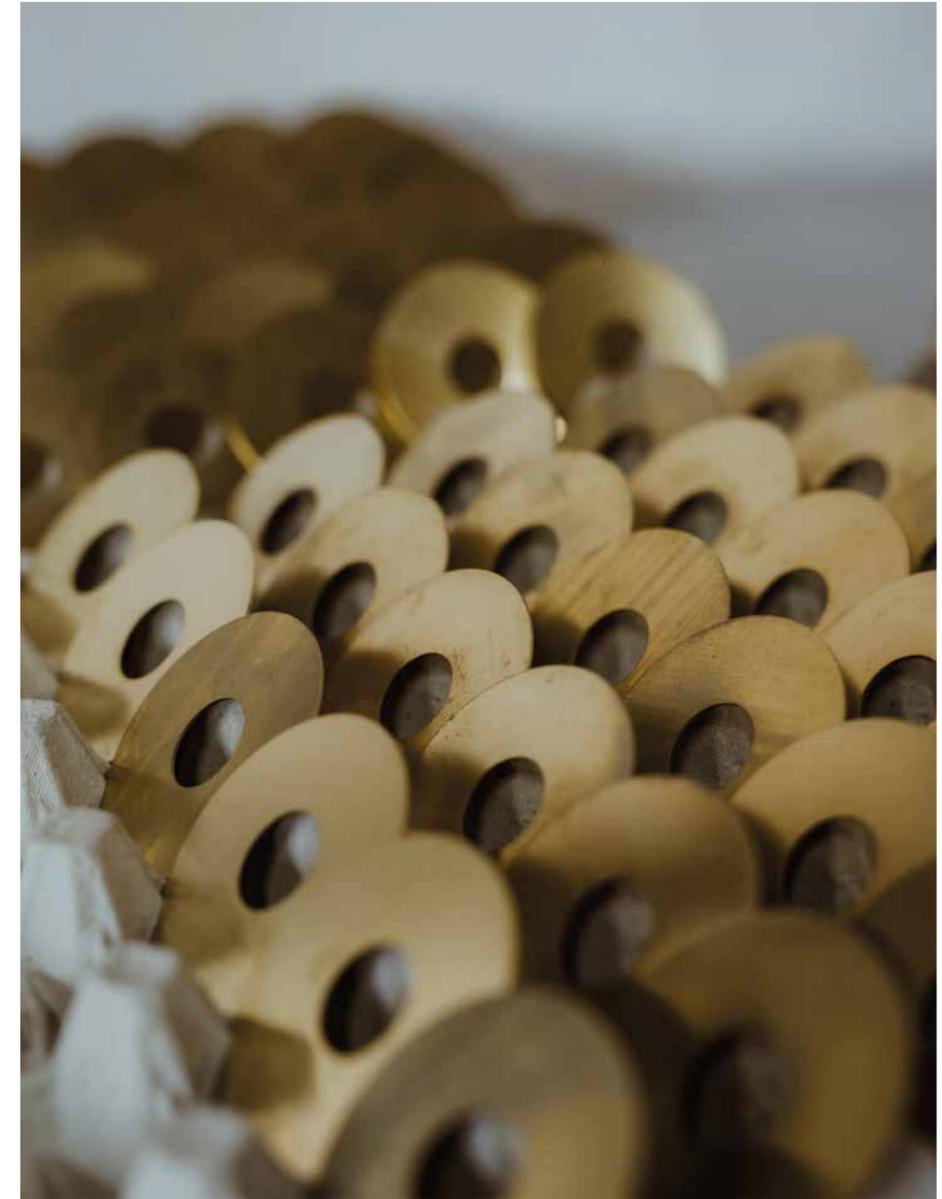

### PROJECTS

We study and model light and scenic lighting systems for prestigious structures, following the ideas of entrepreneurs, light designers and architects around the world. To partners and customers we provide quick samples as well as comprehensive advice for bespoke products — objects of precious furnishings that respect, in terms of color and structure, the tastes and parameters of those who place Gibas in environments intended for tourist accommodation or in fluid and innovative business spaces.

### PROJEKTE

Wir entwickeln und modellieren leichte und beachtliche Lichtsysteme für prestigeträchtige Strukturen und folgen dabei den Ideen von Unternehmern, Lichtdesignern und Architekten auf der ganzen Welt. Unseren Partner und Kunden liefern wir schnell Muster sowie umfassende Beratung für maßgeschneiderte Produkte, wertvolle Einrichtungsgegenstände, die in Bezug auf Farbe und Struktur den Geschmack und die Parameter derer berücksichtigen, die sich für Gibas entscheiden um Touristenunterkünfte oder moderne und innovative Geschäftsräume zu beleuchten.

## OFFICINA

Ogni prodotto luminoso nasce e si compone qui, in Gibas, ognuno sotto gli occhi di un tecnico che segue piegatura, saldatura, tornitura, verniciatura del metallo e montaggio—tutto, fino all’imballaggio in cartone, creato sempre in azienda e adattato alle sagome degli articoli. La verniciatura si esegue a polvere per ottenere uno strato verniciante di tenuta incomparabile: è un passaggio chiave per determinare la qualità del prodotto in termini di finitura e resistenza.

### WORKSHOP

Each luminous product is born and composed here, in Gibas, each one under the eyes of one technician who follows bending, welding, turning, painting of the metal and assembly — everything, up to packaging in cardboard, always created inside of the company and adapted to the silhouettes of the articles. The coating is carried out with powder to obtain a varnish layer of incomparable seal: it is a key step to determine the quality of the product in terms of finish and resistance.

### PRODUKTION

Jedes leuchtende Produkt wird hier in Gibas entwickelt und hergestellt, jedes einzelne unter den Augen eines Technikers der dem Biegen, Schweißen, Drehen und Lackieren des Metalls bis hin zur Endmontage und Verpackung folgt. Die Verpackung aus Karton wird im Werk erstellt und der Silhouetten des Artikel angepasst. Die Beschichtung erfolgt mit Pulver, um eine unvergleichliche Lackschicht zu erhalten: dies ist ein wichtiger Schritt, um die Qualität des Produkts in Bezug auf Finish und Widerstandsfähigkeit zu bestimmen.
